**SUBSTITUTE DECLARATION FOR REISSUE PATENT APPLICATION**

As the below named inventor, I hereby declare that:

My residence, post office address and citizenship are as stated below next to my name.

I believe I am the original, first and sole inventor of the subject matter which is described and claimed in Patent No. 6,148,695 granted on November 21, 2000, and for which a reissue patent is sought on the invention entitled: Ratchet wheel with asymmetric arcuate concave teeth or nonarcuate concave teeth and ratcheting tools with such ratchet wheel, the specification of which may be identified in the U.S. Patent and Trademark Office as Application No. 10/301,491 filed on November 21, 2002.

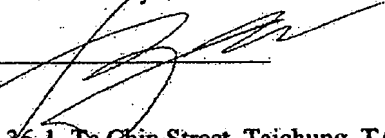

I hereby state that I have reviewed and understand the contents of the above identified specification, including the claims.

I acknowledge the duty to disclose information which is material to patentability of this application in accordance with Title 37, Code of Federal Regulations, Sec. 1.56.

I verily believe the original patent to be wholly or partly inoperative or invalid, by reason of the patentee claiming less than he had the right to claim in the patent. In this regard, the applicant believes it is unnecessary that all of the broadest independent claims include the recitation that the ratchet wheel includes "an inner periphery" as well as other recitations directed to the particular constructions of the elements. All errors corrected in this reissue application arose without any deceptive intention on the part of the applicant.

I declare that all statements made herein of my own knowledge are true and that all statements made on information and belief are believed to be true; and further that these statements were made with the knowledge that willful false statements and the like so made are punishable by fine or imprisonment, or both, under Section 1001 of Title 18 of the United States Code and that such willful false statements may jeopardize the validity of the application or any patent issued thereon.
